From: Wendy Burrell
Subject: Rothmans

We have been informed that Rothmans' implementation of a labelling policy has been "indefinitely suspended". The company has decided to wait until it has proof positive that the US companies have fully implemented their labelling policies. This information was given to me in early September at a meeting with a Rothmans Tobacco International executive. At that time, I confirmed that PM was in compliance with the policy and asked for any examples of nonconforming packaging. I have not heard or received anything from Rothmans since that meeting.
